# Flex trading with capacity limiting contracts using the GOPACS application

Version: June 10, 2025 @

#### Introduction @

This manual describes how flex trading with Capacity Limiting Contracts works in the GOPACS application. The goal is to provide enough information, insights and confidence in how the application works, so that it is not needed to try it out first on a testing environment.

#### How to read the instructions $\ensuremath{\mathscr{O}}$

The steps in the instruction manual are described in table form to clearly define the steps. The following columns are defined.

Column	Definition
Step	Order in which the steps are needed to be executed.
Description	Describes in detail what happens in the step.

### Glossary @

Is there a term that is unclear, the explanation is probably in our Glossary.

For Dutch the glossary is located here: <u>Begrippenlijst - GOPACS</u>

For English the glossary is located here: Glossary - GOPACS

## Instructions @

Step	Description
1	Preparation: To be able to start participating in flex trading with Capacity Limiting Contracts on <u>gopacs.eu</u> , you need:
	1. A registered trading company with an activated user account
	a. If not arranged yet with your grid company, start at <u>https://app.gopacs.eu/signup</u> and follow the
	instructions on the page and the emails that you will receive. Ask your grid company contact person to
	approve your signup.
	2. Filled in UFTP settings on your trading company details page
	a. Select "GOPACS platform"
	3. Your grid operator will register your Capacity Limiting Contract on the GOPACS application.
2	When your grid operator uses your contract to resolve congestion, you will receive an email with a link to the
	application. The email subject will be like "Alliander" has requested to call CLC contract L-IA-N-34234". Click
	the link in the email and view the details of the request.
